

WEDNESDAY, NOV. 1, 1909.

PERRY COUNTY

Farmers Will Meet at Rome, November 27th and 28th.

TO DISCUSS WAYS AND MEANS

The next meeting of the Farmers' Institute of Perry county, Ind., will be held at Rome, Ind., Nov. 27th and 28th. C. M. Hobbs, of Bridgeport, Marion county, Ind., Indiana's greatest horticulturist, and H. S. Wolfe, of New Albany, Floyd county's model farmer, are the speakers of the occasion joining at the program. The brother farmers from the south side of the Ohio are urged to come to this meeting at Rome at 9 a. m. Monday morning and stay until the close of the last session Tuesday night. Rome will entertain all farmers and their families.

J. J. WHEELER,
Box 345,
Rome Ind.
Chairman of Perry Co's Farmers' Institute.

PROGRAM.

Program of the 11th Perry county Farmers' Institute to be held at Rome, Ind., November 27th and 28th.
J. J. Wheeler, Rome, President.
J. D. Brashers, Hardin Grove, Vice President.
E. H. Groves, Rome, Secretary.
Free entertainment for all visiting farmers and their families. Come, Rome and all the farmers hall you "welcome."
We shall strive to make the first session the best and most instructive and then continue to improve.

THANKSGIVING DAY.

The President Issues a Proclamation Appointing Thursday, November 30.

WASHINGTON, Oct. 24.—President McKinley to-day issued this Thanksgiving proclamation:

"A national custom dear to the hearts of the people calls for setting apart of one day in each year as an occasion of special thanksgiving to Almighty God for the blessings of the preceding year. This honored observance acquires with time a tender significance. It enriches domestic life. It summons under the family roof the absent children to the glad reunion with those they love.

"Seldom has this nation had greater cause for profound thanksgiving. No great pestilence has invaded our shores. Liberal employment waits upon labor. Abundant crops have rewarded the efforts of the husbandman. Increased comforts have come to the home. The national finances have been strengthened and public credit has been sustained and made firmer. In all branches of industry and trade there has been an unequalled degree of prosperity, while there has been a steady gain in the moral and educational growth of our national character. Churches and schools have flourished. American patriotism has been exalted. Those engaged in maintaining the honor of the flag with such signal success have been in a large degree spared from disaster and disease. An honorable peace has been ratified with a foreign nation with which we were at war, and we are now on friendly relations with every power of earth.

"The trust which we have assumed for the benefit of the people of Cuba has been faithfully maintained. The progress toward the restoration of healthy industrial conditions and under wise sanitary regulations the island has enjoyed unusual exemption from the scourge of fever. The hurricane which swept over our new possession of Porto Rico, destroying the homes and property of the inhabitants called for the instant sympathies of the people of the United States, who were swift to respond with generosity aid to the sufferers. While the insurrection still continues in the Island of Luzon, business is resuming its activity, and confidence in the good purposes of the United States is being rapidly established through the archipelago.

"For these reasons, and countless others, I, William McKinley, President of the United States, do hereby name Thursday, the thirtieth day of November next, as a day of general thanksgiving and prayer, to be observed as such by all our people on this continent and in our newly acquired islands, as well as by those who may be at sea or journeying in foreign lands; and I advise that on this day religious services shall be conducted in the churches or meeting places of all denominations, in order that in the social features of the day its real significance may not be lost sight of, but fervent prayers may be offered to the Most High for a continuance of the Divine guidance, without which man's efforts are vain, and for Divine consolation to those whose kindred and friends have sacrificed their lives for the country.

"I recommend also that on this day so far as may be found practicable, labor shall cease from its accustomed toil and charity abound toward the sick, the needy and the poor."

WOLF CREEK.

FIFTH SESSION, THURSDAY 1:30 P. M.
Economy in feeding farm animals—H. S. Wolfe.
The draining—Hon. Philis Smith, Prospero, Ind.
Title to be received yet—N. P. Hines, Bonaville, Ind.
Spr. San Jose Scale and spraying—C. M. Hobbs.
Paper—Mrs. Lizzie W. Wheeler, Rome.

SIXTH SESSION, THURSDAY 7 P. M.
Tillage—C. M. Hobbs.
Egg production, hatching and raising chicks to weaning—A. W. Cunningham, Derby.
Money in chickens—Austin Thompson, Troy.
Free rural mail delivery—Q. K. Groves, Toltinsport, Ind.
The potato, its importance and how to grow it—H. S. Wolfe.

The music will be in charge of the Rome singing choir of which Mr. D. L. Shank is leader.

Brave Men Fall
Victims to stomach, liver and kidney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, nervousness, headache, and tired, listless, run-down feeling. But there's no need to feel like this. Listen to J. W. Gardner, Louisville, Ind. He says: "Electric Bites are just the thing for a man when he is all run down and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents at Clark & Hayes' Drug Store. Every bottle guaranteed.

Hancock County Boy Drowned.

A recent report from Gen. Olin, in the Philippines, records the accidental drowning of Corporal Eugene Wile, of Company M, Sixteenth Infantry, says the Hancock County, Young's farm formerly lived at Enser with the family of Mr. T. B. Jones, who reared him from a child. He enlisted at the outbreak of the Spanish war as Capt. Tyler's recruiting officer and was in the fighting about Santiago. At the close of the war he got his discharge and in February last he re-enlisted at Louisville for the Philippine campaign. He was on the firing line with the Sixteenth and won his promotion to corporal. No details of his death are known farther than he was accidentally drowned, as shown in the official report. He was well known and liked about Waiman and the lower part of the county.

Red Hot From the Gun

Was the ball that hit G. B. Steadman of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Buckle's Arnica Salve cured him. Cures Cuts, Bruises, Burns, Blisters, Felons, Corns, Skin Eruptions. Best Pile cure on earth. 25 cts. a box. Cure guaranteed. Sold by Short & Haynes, Druggists.

ROCK VALE

Miss Sallie Clemons is "On the sick list."

Miss Rosa Hart has returned home from a long visit.

Earnest Clemons, of Compton, Ill., is visiting his parents at Rock Vale.

Misses Lillie Druan and Nannie Fisher went to Glenview Saturday.

Miss Sarah McCarty attended singing at George Hart's Wednesday night.

Miss Fannie Hart went to Louisville, Friday, to accept a position as milliner.

The wheat crop is looking well. Good times are coming if Taylor is not elected.

Mr. Robert Brown has a large job of hauling the logs for the Dan. The company.

The Hon. LaVerne Clements, of Owensboro, spoke here Tuesday to a good crowd.

Lafe Hart's new store is ready and his customers are here. There is a good trade and we hope he will have a good trade.

Dr. Ball Cough Syrup will prove a welcome cure for colds. Mothers who give their children are attacked with that dreadful disease, you can depend on this marvelous remedy. It cures all colds at once. Price 50c.

Flattered at Cannellton.

Chas. W. Allen and Annie Casey, of Cloverport, were married at noon yesterday at the Cottage Hotel by Sybil Richey—Cannellton Telephone.

Lost.

Many have lost confidence and hope as well as lost health, because they have been told their kidney disease was incurable. Foley's Kidney Cure is a guaranteed remedy for the discouraged and discomfited. A. B. Fisher, Cloverport. E. A. Witt, Hardinsburg.

From Pineville.

Mrs. Geo. H. Reese and little daughter, Genevieve, left yesterday morning for Mt. Sterling on a visit to Mrs. Rees's mother. From there they will go to Hawesville for a visit to Mrs. George Brainerd, Mrs. Reese's sister—Cumberland Courier.

The editor of the Farm Journal asks: "Why have so many of our farm, poor crops, sour bread, leak in the roof, holes in the pocket, skeleton in the closet, or any other pain or trouble, when you can get the Farm Journal for the balance of 1899 and all of 1900, 1901, 1902 and 1903, nearly five years, by paying a year in advance for the Breckenridge News. This you can do if you are not too late."

For Pneumonia.

Dr. J. C. Bishop, of Agnew, Mich., says: "I have the Elder's Honey and Tonic in three very severe cases of pneumonia the past month with good results."—A. B. Fisher, Cloverport; E. A. Witt, Hardinsburg.

WEDNESDAY, NOV. 1, 1899.

EIGHT PAGES.

CARDS OF THANKS over five lines charged for at rate of 10 cents per line.
 BREVETTES charged for at the rate of 5 cents per line.
 SHORT IN ADVANCE.

THE DOORS are what we would call in this country "hay seed farmers."

A YOUNG man should never petition for an opportunity. He should make it.

WHEN this is read the election will be a thing of the past. It will be either Goebel or Taylor and so far as the News is concerned the man whom the people select will be our Governor, and as such we will stand by him if he stands for the right. A Kentuckian can bet now that he will not do anything but the right thing. So here's to the next Governor, be he Goebel or Taylor.

THE NEWS is glad of one thing now that the election is over, and that is that its columns have been free from abuse and it has no remorse of conscience for having printed a lot of vile staff calculations and made an army of our citizens against another, create enmities and hard feelings and stir up the worst blood in the community—all for the purpose of putting a few fellows in place. For one time in 20 years our hands are clean; our consciences clear and we are glad of it.

SYSTEMATIC farming is what we need in the south. We have an abundance of land, good soil, and our climate conditions are better suited to farming than any other line of work. There is neither economy nor profit in cultivating a large area of land in a slipshod way so that the net proceeds barely pay for the family groceries. A small farm managed in an orderly systematic manner, using everything to the best advantage, will earn money for its owner. Let the farmer use their brains as well as their muscle; let them study their business and stick to it instead of talking politics and "hard times" at the country store and great will be the change. When they do away with a haphazard work when you please kind of farming and adopt a method of procedure, a line of policy as to when, carry it out to the letter and watch results. When this order of things is inaugurated, there will be no more to waste, worn out farms and every farmer will be prosperous and contented and master of all his surveys.

In the recent installation of President Hadley, the thirteenth President of Yale college, a certain number of students of having strong characters as educators. President Hadley is not a minister, as many of his predecessors have been, but a man of strong personality, of the highest ability and a deep student of human nature. The president of a large college like Yale, must necessarily exert a wonderful influence for good or evil; likewise, in a smaller institution, the humble pedagogue who walks a mile to his log school house, eats his lunch from a tin pail and boards "second." The influence of such an educator is incalculable. He stands for right and equity among his fellow men. Knowledge is the key that unlocks the mystery of life and it is to the teachers, the reborn leaders of education in every community, that we appeal for help. The teachers of Breckenridge have made it a matter to answer for in the future history of the county. Next to the mothers they are probably the most responsible factors in its future government, for it is the seed of civilization, planted in youth, grows automatically for a long time, that will spring up in manhood and bring forth its crop of good or evil fruit. May the teachers of this county avail themselves of every opportunity to increase their knowledge and their influence for good, and may they be rewarded by having at least one president of Yale college claim Breckenridge as the place where his superior educator to be great and good was first stirred.

A WORD TO OUR PATRONS.

We have contracted for a new press. It will be set up in our office within the next few weeks. It is a modern, up-to-date machine, and prints and folds an eight page paper, the size of the News, in less than half the time we are now doing it with our present facilities.

No other country office in Kentucky will have such an equipment. It is a labor saving and time saving machine and will enable us to handle our local correspondence much more satisfactorily and all the news that's fit to print right up to the time of going to press at 6 o'clock Tuesday evening. When we go to press on the last form on the paper comes out folded and ready for the mails in less than two hours. Under the old way, we ran along for about four hours, with the form on the last form on the paper comes out folded and ready for the mails in less than two hours. Under the old way, we ran along for about four hours, with the form on the last form on the paper comes out folded and ready for the mails in less than two hours. Under the old way, we ran along for about four hours, with the form on the last form on the paper comes out folded and ready for the mails in less than two hours.

This is a matter of course costs money, and the News is a great big affair. Our readers and business men, it is a subtle demand and it takes what we have here, to serve the public with what they want. Now a word to our patrons and all who have a pride in their county and their country paper. We expect you to help us out on this piece of enterprise. We expect you to come up promptly with your subscription, if you

are behind, to pay up, to advance your subscription, one, two, or five years. You couldn't invest your money to a better advantage or in a way that will bring you greater returns. Take a little stock in your home enterprise, encourage the boys and girls that are behind it, that stand behind the guns, as Dewey said, and stick the type, that pulls the presses, that make up the forms, write for leads, read the proofs and do a thousand and one things that are necessary to be done, even in a little country paper.

There's a whole lot of people connected with the News. It's a pretty big establishment and the beauty of it is, that is a home affair. The young men and young women who build its forms, write its pages, were all born and bred right here in the good old town of Cloverport, and that's a thing to be proud of. Where is there a better town? Every dollar turned in for subscription, advertisements, and job work is an incentive to them for better work. Let us have your aid, don't wait for a personal appeal. Look at the label on your paper, and if you are behind at right down and send us a check for what you owe to-date and a year in advance. Don't neglect it. It is important to us. It takes money to run anything that's good.

How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Props., Toledo, O. We're the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. West & Truax, Wholesale Druggists, Toledo, O.; Walling, Kinnear & Marvin, Wholesale Druggists, Toledo, Ohio. Hall's Catarrh Cure is taken internally, acts directly upon the inflamed mucous surfaces of the system. Price, 75c. per bottle. Sold by all Druggists. Testimonials free. Hall's Family Pills are the best.

BRANDENBURG.

Mr. and Mrs. Frank Ditto have two very sick children.

Miss Maydee Pusey has returned from a delightful stay in Louisville.

The Farmers' Institute will be held here November the 27th and 28th.

Miss Ella Garber was a guest of Mrs. J. W. Lewis and family last week.

Miss Lillian Moreman is at home at our most pleasant visit to Louisville.

Mrs. Hanes and Mrs. D. W. Lewis last week.

Miss Ellen Ashcraft, of Mankport, attended the funeral of little Jane Allen Brown.

Bro. Litchfield preached to a full house last Sunday morning, and again last night.

Charles Coleman went to Louisville to hear Taylor, candidate for Republican Governor, speak.

Mrs. Marion Reese, a kind, pleasant little woman, visited her sister, Mrs. Jane Brown, last week.

Mrs. Nellie Jenkins visited her parents, Mr. and Mrs. C. W. McGeehe, last week and attended church here Sunday.

Mr. and Mrs. Richard Willett entertained the "Mite Society" last Saturday evening. Everybody had a pleasant evening.

Yes.—We know now why Miss Maydee came home before the Grand Opera season. The Goebel rally brought her, she is patriotic.

Mr. P. G. Bryan, the old well-known and reliable piano tuner, is here doing excellent work. Mr. Bryan is as well and active as a young man.

Miss Ella Morris and several young ladies, pupils of the school of music, will not learn, send Sunday with Miss Lillian and Virginia Rhodes.

Next Sunday will be "Bible Day" at the Baptist church. Recitations, special songs and other interesting features. Everyone cordially invited.

Miss Trent is at Mrs. Gough's to study music under Miss Daisy McIntire. I beg the young ladies pardon for neglecting to report her presence here.

Thomas J. Sharkey as a prize fighter is near the end of his career. Then he intends to be a gentleman and like Dewey marry.

Back numbers are in order. Mr. W. D. Howard, and Mr. and Mrs. Ned Reese were in Louisville last week. Mrs. Reese went up to see a specialist as she does not improve as she would wish to be to it was supposed to have been buried. To-day it is resurrected by sixteen white horses to one "yaller."

Just about the only it will ever be repeated.

Mr. Lena Moreman has left to join her husband, Ben Moreman, who is in the West. Lena Moreman is a handsome, sweet, good young woman, and will make a fine wife.

Little Jane Allen Brown, infant son of Mr. and Mrs. Jane Brown, died last week of pneumonia. He was a sweet, bright baby. He had been sick sometime.

At the home of Mr. and Mrs. R. H. Nevitt the stock has again flown upon the house-top and there is a "glint of green" in the air in the Dallas household.

A girl, and we Kentucky friends send congratulations.

Everything is in readiness today for the big Goebel rally. Sixteen young ladies and girls will ride to Weldon to meet the speakers, headed by the Corydon brass band. Goebel songs arranged by C. C. Burton will be sung; speeches in the afternoon, as indicated.

My cousin, L. A. Foote, Brandenburg, gives some excellent reasons for using fertilizer on wheat in last years of the paper. He has been a farmer pretty much all of his life, more than three score years, and has always been a general reader and close observer.

The Louisville correspondent is one of

our best. I like the ideas advanced on a "dry town." Mrs. J. H. S. advances some good, true ideas "you open as soon" in her answer. I repeat that no woman can stand for the saloon or whisky in any form, except as a medicine. But fight it right.

Mr. A. C. Barton went to Louisville last Friday to make an address at the Rev. Phillip Jenkins' church before the young people's society, on the "Coming of Christ." He was announced to lecture at Sandy Hill Saturday night and I presume he did. He also attended the Teachers' Association at Woodland last Saturday.

When these big Democratic rallies come around, we all think of dear Mrs. Dowdy who has been gathered home. How she did enjoy them and a true, devoted Democrat she was! Mrs. Dowdy was true and firm in all relations of life. She has her prototype in dear Miss Hall's, her only surviving daughter, who is a true blue Democrat, and who lives a beautiful, quiet life, ever keeping alive her departed loved ones of whom she thinks as visiting spirits.

That cousin of mine, Senator George H. Alexander, whose handsome face was in Wednesday's Post, tells why he could not support Mr. Goebel. The principal and foremost reason assigned was "I am a Democrat and do not consider Goebel the nominee of my party for Governor" and he added "I am opposed to every man on the Mute Hall ticket." George Alexander stands squarely on the Chicago platform and he thinks had Mr. Bryan known the true history of the Louisville Convention he would never have come here to advise Democrats to endorse its methods. He says this split in the Democratic party will teach a valuable lesson and that the party will not put out its best man. I can tell my cousin George that the party had an opportunity to put out P. Watt Hardin, and that force and fraud prevented and just so it will be in the future—where political rule and all parliamentary law is over-ruled.

LITTLE DEMOCRAT

Waxes Eloquent On the Political Issues of the Day.

REPLIES TO MR. THOMAS.

I notice in the News that Mr. Sam Thomas criticizes the Democrats very sharply and "Little Democrat" in particular. He says I have not studied the history of the Democrats during the past thirty years. He is mistaken. I have studied the history of both the Democrats and the Republicans, and I find that in 1873 the Republican party denounced silver, after we had enjoyed unbounded prosperity with bi-metalism for eighty-one years; and then I find the Democrats party fighting for the rights of the people. We fought our Wall Street party so hard that we secured the Sherman Silver Bill in 1890 and secured \$52,000,000 more per annum for our people than we had under your Republican law; and in 1890, I find you still for the abominable gold standard, crushing the laboring man down in favor of the capitalist; and I find the Democratic party fighting for the gold and silver money of the constitution in face of the masses; and in 1890 I find the Democratic party endorsing the China School Book Bill, to keep school books cheaper, and the Republican party opposing them; and the Democratic party endorsing the McChord Railroad Bill, in which the state may run the L. & N. railroad, and send the L. & N. to the state, with the Republicans opposing this.

Now, Sam Thomas, except you endorse that Wall Street platform adopted at St. Louis by Mark Hanna, which a three year old child has proven the greatest error we have ever had, you have no platform. You only oppose the Democrats in their efforts to relieve the people of their political bondage.

I suppose you oppose the Goebel election law and that will deprive you of your rights. We are told by the Republican cohorts that we used the gold standard money system to enable us to do business with other nations and in the domestic branch they tell us that we need a high tariff to keep other nations from doing business with us. What we do really need is bi-metalism to enable us to coin and use all the gold and silver money we can produce, and have none so efficient to buy and handle our great amount of produce and a tariff for revenue only, so we can have competition, which is the life of trade.

We are told by the Republicans that we are in the midst of prosperity, but with Dice harrows die dollars higher than in 1867 and corn worth 22¢ of money, we don't think much of that sort of prosperity.

We have little sympathy with the producer of wealth who listens to the leaders of a party which is destined to reduce the amount of our primary money one-half, thereby decreasing the price of produce one-half, and which stands against the income tax, thereby making the laboring class pay the expenses of our government while the millionaire goes free. Would not be better to say to those dross, "Go down in the earth and help dig our coal, go out in the field and reap produce our bread, go in the field and reap 100 days and make a crop of tobacco, or go down into your pocket and help pay the taxes of our country." Then we would not fear that you would not vote against the trusts, which are increasing the number of millionaires. Vote for that party that indorses equal rights to all and exclusive privilege to none.

Constant and prompt attention is urged throughout the term.

Stop Coughing

Every cough makes your throat more raw and irritable. Every cough congests the lining membrane of your lungs. Coughing tears your throat and lungs in this way. Put the parts at rest and give them a chance to heal. You will need some help to do this, and you will find it in

Ayer's Cherry Pectoral

From the first dose the quiet and rest begin: the tickling in the throat ceases; the spasm weakens; the cough disappears. Do not wait for pneumonia and consumption but cut short your cold now or you will delay.

Dr. Ayer's Cherry Pectoral Plaster should be over the lungs of every person troubled with a cough. Write to the Doctor.

Throat's opportunities and long experience eminently qualify him to write this. He has had years of experience in the treatment of coughs and colds, and will never cease a prompt reply, without Address, DR. J. C. Ayer, Lowell, Mass.

GLENDENE.

'Poems are ripe and partridges' turning.

John Dean went to Owensboro Saturday.

The Dewees spent Sunday in Owensboro.

Dr. Dempster goes to Louisville tomorrow.

Dad Ashley went to Fordville on a visit Saturday.

Mrs. Sweet is visiting Mrs. D. R. Welborn, at Central City.

Mr. Nath Wells and wife are visiting at Annetta, Grayson county.

Low Decker, from Shreveberry, will move to Frank Deane's near town.

Little Miss Mamie Brown is staying a week or two with her sisters in Owensboro.

Mr. and Mrs. Eli Dean and Mrs. W. R. Moorman visited at Millwood last week.

Miss Ella Miller, of Hardinburg, is the guest of Misses Lattie and Halie Moorman this week.

W. R. Moorman went over to Millwood Saturday to return with Mrs. Moorman Sunday.

Miss Eva Henaley and Allen Kinchloe, of Hardinburg, were visitors at Mr. Bob Robertson's Sunday.

Hon. Chas. Bradford made the last campaign speech to the Glendene people. A tall house and an entertaining speech.

Forest Blair, of Stephensonport, and a Mr. Mitchell, of Derby, Ind., had a long walk representing some photograph house.

Dr. Dempster has just put down some sidewalks, greatly improving the walk way when the muddy season comes on. We will soon be mud proof.

Merchants report a fine trade last week. They are the only people we have who are too busy to talk election.

Mr. Stum desires to thank the people for the liberal trade he is receiving.

Rev. Miller preached Sunday to a good audience. He will have larger audiences hereafter, the appointments were not well known over the neighborhood. Come out to hear him the first Sunday in each month at eleven.

STORIA REPORT AND SCHOOL NOTES.

The Roll of Honor for second month is as follows: May Dempster, 100; Lizzie Fisher, 99; Harry Moorman, 99; Robert Fisher, 98; Walter Moorman, 97; Ed Mattingly 96; Roy Moorman, 96; Emma Lee Moorman, 95; Clara Mattingly, 94; Elliott Moorman, 94; Owen Hunter, 94; Louise Moorman, 93; Mada Maxwell, 92; Nora Hoskins, 91; Otter Owen, 90; Silva Mattingly, 89; Madeline Mattingly, 88; John Fisher, 87; Theodore Meredith, 86; Mada Maxwell, 85; Jesse Rhodes, 85; Jesse Carey, 84.

All these reports include daily attendance and punctuality in addition to recitations and deportment. We cannot have the names this month of those pupils who spent one or more school days in Louisville last month. These are: Alina Mattingly, Daisy Deane, Emma De Moorman, Nellie Robertson, and Dick Robertson. We were perfect or nearly so every day present. In fact no better workers are in school, as their reports always show.

Inability to get to school at the minute of opening places Miss Carey's name lower on the list than others. Miss Carey's work is superior. She both teaches and attends school this year.

Friday afternoon exercises from now on current events every Thursday morning.

Constant and prompt attention is urged throughout the term.

We Want Everybody to Know that we are Still in The Ring.

LADIES' SKIRTS.

In the last four years no garment has undergone the change in style that the Skirt has, hence the necessity of a careful selection. We are showing the best assorted line of Ladies' Dress Skirts ever seen in this town. We also have a grand display of Underskirts.

HOSIERY.

Our line of Hosiery is second to none. We have Plain Cotton, Cotton-fleeced and all wool. We can give you any grade you want from 5 cents a pair up.

RAPID LACER SHOES

Ladies, save your time and patience by using our Fine Kid Rapid Lacer shoes. They are the latest and newest thing in shoes. Call for them and be suited for once.

UNDERWEAR.

This is the season to think of underwear. We are selling stacks of it, both to Ladies and Gentlemen. Our stock in this line is huge and you may be sure our prices are right too. Give us a chance to show you.

Ladies Capes, Jackets.

HATS.

The largest and newest line of Hats, Young Men's nobly hats have just been received. [THE HAMPSHIRE, one of the newest and most stylish hats made this year, is for sale by us. Just the time to complete your winter outfit. Don't miss this opportunity.]

Our supply of ladies Jackets and Capes is very large. We have up to date wraps of every style. You can be fitted and we are the ones to do it. Try us and see.

OVERCOATS.

We are prepared to sell Overcoats cheaper than has ever been known in this town. We have a new line of Boys and Youths overcoats in all colors—blue, black, brown and gray. Pay your money and take your choice. The price will suit you too.

GLOVES.

Keep your hands warm by buying a pair of our Heavy Gloves. We have a full assortment that will cover your needs from 25 cents per pair up. If you have a pair buy another pair for a friend or neighbor who has none. Remember the price 25 cents and upwards.

Now the whole truth is this: Our stock is complete in every line and our prices are as low as the lowest; moreover we guarantee you honest and fair treatment in any dealing made with us. Thanking the people for their very liberal patronage in the past and earnestly soliciting a continuance of same we are

Very truly yours,

HESTON, WILLIS & CO.,

CLOVERPORT, KY.

FREE MADE FERTILIZERS.

Use Organic or Vegetable Deposits To Enrich Your Soil.

CARE OF TENDER PLANTS

A Combination Milk Shelf and Storage For Fruits.

OTHER ITEMS OF INTEREST.

Muck for Preserving Manure.

A bed of muck on the farm is a gold mine. These deposits of black earth found in swamps along brooks and in low spots in the checkerboard fields, are chiefly masses of half decayed vegetable matter, which should all be gathered and taken to the cultivated fields as food for growing crops. Many are, however, to mingle muck and peaty matter with the materials of the barnyard. Their decay has been partially arrested by an asphaltic or pitchy coating, and the action of lime, ashes, or other alkalis or the fermentation of the manure heap is required to hasten the decomposition and prepare the elements for entering into new organizations.

Before autumn floods and winter frosts lock up or render inaccessible the black mold, it should be dug out and thrown away in the muck heap so that it may be ready to cart to the farmyard at leisure. The profits of the farmer depend much upon his skill in managing and increasing the manure heap. Many are aware of this, and millions are now paid every year for the manure deposits of the Chincha or Peruvian Islands. A hundred loads of this black muck trucked out to dry at the latter end of summer, and afterwards mingled with an equal bulk of fresh deposits in the barnyard will produce 200 loads of rich manure, fully equal, bulk for bulk, to the best barnyard manure. Experience has fully tested the truth of this assertion, and intelligent farmers tell why this is so.

As the animal excrement is mainly left in the yard, one-half or three-fourths is lost by decay and evaporation into the air, but an admixture of muck from the manure heap, which retains the escaping gases, which constitute by far the richest procure of all manures; and further, during this fermentation, the muck itself becomes decomposed and prepared to enter at once into the plant as food.

Let everyone look about his farm for some of these valuable deposits. There is not one farm in a hundred that will furnish more or less of them. Wherever water runs from higher ground and falls in a low spot, it carries down some portion of the vegetable matter which leaves it there. Sometimes these deposits cover dozens of acres, and in other cases the black mold occupies but a few feet of surface; but if only a small hole and a load there can be obtained, it is worth looking after. As soon as cold weather suspends the ordinary field work, commence hauling your muck from the barnyard where it should be piled up under a rude cover, if possible, and then daily mingled with the droppings from the horse and cattle stalls and the hog pen and poultry house. Such portions as will not be needed for this purpose should be shoveled over with the addition of a bushel or more of freshly-slaked lime to each wheelbarrow load. In the absence of lime, or if more convenient, a somewhat larger quantity of unbleached shales may be substituted for the lime with equally good or better results.

If no rich, black muck or earth can be found on the farm, then go to the thickest forest and gather the surface soil and half decayed leaves which have fallen for a dozen years—perhaps half a century. Everything of organic or vegetable origin is valuable and should be treasured. The outlets of drains or water courses upon the roadside, or at the lower side of fields, will afford more or less of these vegetable deposits. The ground covered by old fences may be profitably carted to the yard and used as a ground bed for the absorption of liquid manures.

—J. G. ALLEN, in AMERICAN AGRICULTURIST.

Raw Manure Dangerous to Plants.

Among inexperienced cultivators it is not improbable that more plants die from the application of raw, strong fertilizers than from any other cause. Not long ago a neighbor of mine received a box of rose plants, and the season was far advanced, decided to start them in pots on his shaded back porch and afterward turn them from these pots into garden beds. The little bushes were beginning to grow nicely when I first saw them, but their owner feared he had not made the soil rich enough. So he expensively fertilized with a two-inch layer of fertilizer from the cow stalls.

"The roses did not seem to mind it," he said, "until there came a heavy rain, the next few days the roses began to begin to die from the roots up." If the fertilizer had been well decayed, had been given in smaller quantities—a mere sprinkling of it over the soil—had been applied two weeks later when the roots of the roses were well established, the plants might have been benefited. Plants that grow in pots cannot live

day. Though tying with chains, they can lie down on either side and turn and lick themselves at leisure.—H. H. CHILDS, in AMERICAN AGRICULTURIST.

The Good Points of Small Cheese.

Small cheese are best for home consumption. Cheese are to a certain extent porous, and the unbroken rind forms a shell of protection. When this rind is broken by cutting, air enters, and the shell that the product formerly enjoyed against moderate changes of temperature no longer serves it. Mold generates and travels along the seams and cavities, if the cheese is slightly handled, or natural moisture is dried out if conditions happen to be the opposite. In either event the quality of the cheese deteriorates, especially if several weeks elapse from the time of cutting before it is consumed.

For average-sized families, 10 lb cheese are much better to buy or make than 50 or 60 pounds. These small-sized cheeses, while manufactured on a limited scale are not produced in sufficient quantities to supply the demand. I think that in no case can an increase of cheese consumption be more effectively induced than by the more general manufacture of such light-weight full cream stock.

Dairy men who produce cheese at home for their own use should not attempt to have them weigh less than five pounds or more than ten pieces. This course applies to the cheese produced at home, but not to include brick or other styles of cheese of foreign introduction. By so doing, they will always have a fresh and healthy article to place upon the table, and the cheese being consumed within a few days after cutting has no chance to deteriorate, if given ordinary care. I have been familiar with cheese and dairymen for many years, and from firm conviction when I say that no healthier or more nutritious food exists than this when properly made and carefully stored—GEO. W. NEWELL, in AMERICAN AGRICULTURIST.

Tomato Crop Very Large.

The tomato crop in New Jersey this year has been very large. A prominent grower estimates the crop at 80,000 bushels. With a comparatively short supply of peas and beans the Jersey packing houses are anticipating an unusually large call for canned tomatoes between now and next spring, and in their efforts to satisfy this expected demand have bought large quantities of tomatoes, thus keeping the price up fairly well. There are 32 canning factories in Salem county and 15 in Cumberland county and the 47 concerns have a capacity for turning out 15,000 cans of tomatoes annually.—AMERICAN AGRICULTURIST.

How to Stop a Horse from Breaking Loose.

Place a common halter without strap, then take a small cord about 10 to 15 feet long, divide it in the center, place it under the tail and cross it on the back, bring the ends on each side of the neck, place the ends through the halter under the mouth, and tie to a post or tree. Then tie a strap from the tree or post one foot shorter than the rope, after making it tight from the tail. Then cut the strap half off so that it will break easy. When she pulls on it she will be caught under the tail when the strap breaks, which she does not like, and after a few times she will usually give up the habit.—AMERICAN AGRICULTURIST.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine; and have the satisfaction of knowing it has cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on Short & Haynes, druggists, and get a trial bottle free. Regular size 50c. and \$1. Every bottle guaranteed, or price refunded.

COUNTING PEOPLE BY MACHINERY

Facts About Each Person will be Tabulated for the Census by Electricity.

Our first census, made in 1790, showed the population of the United States to be five million, and the count cost Uncle Sam, who was comparatively poor then, one cent for each person. It is estimated that the twelfth census, to be made in June, 1900, will show that our people number seventy-five million, and that the item of clerk hire, in the Census Bureau alone, will exceed five million dollars. Clifford Howard, writing of "How the next Census Will be Taken," in the November Ladies' Home Journal, says that "although the work of enumeration will be completed by the first of July, it will probably be two or three months later before the last of the schedules are received at the Census Office; for not only must they all be first checked by the supervising, but in many cases they will probably require revision because of some error or informality. The actual counting of the people will not be done until the schedules are turned into the Census Office. The enumerators simply gather the facts, and the office force in Washington does the counting and the compiling, which is done by electricity. It is one hundred days all the facts relating to seventy-five million people will be tabulated."

Best Bunter Pradling Cattle.

For breeds for butter I would recommend the Jersey, Guernsey or Devon. Phenomenal cows are found in all breeds. Locations may have little to do with a choice of breeds. The Devon is more likely than the Jersey, and the Guernsey requires better keeping than the Jersey. My experience, covering a period of 20 years, gives me a preference for the Jersey, not particularly the thoroughbred but the high grade, the second or third cross with other breeds, that is, using any good cow for a dam, crossing with thoroughbred Jersey, then crossing the progeny again with thoroughbred Jersey. The first cross makes a half-blood, the second three-quarters, the third seven-eighths, the fourth fifteen-sixteenths, and a fifteen-sixteenth Jersey cow I once had that for milk and butter was the best cow I ever knew. With the modern warm barns we need not raise the progeny again with thoroughbred cows are not expected to be subjected to the cold in winter. It is no economy to per mil this, but the reverse, with the hardiest breeds. I live with chais and have wintered cows that did not leave the stable from November till May. I keep one individual cow for years and could see no ill effect. I brush them every

"Pull up!" That's the counsel very often given by a well meaning person to a fellow who is slipping down the road of alcoholism. And when the man to do right, had a better chance than the man to do wrong. "I can't stop," the man is perhaps reproached for. "I can't stop," the man is perhaps reproached for. "I can't stop," the man is perhaps reproached for.

Strength will stop the wildest horse. Strength is the great necessity in the stopping of disease. Dr. Pierce's Golden Medical Discovery has cured thousands who had obstinate cough, bronchitis, weak lungs, spitting of blood, emaciation, and similar ailments which if neglected or unsuitably treated lead to consumption. It cures by strengthening the lungs and giving them power to resist disease.

When troubled with bronchitis and catarrh of the throat for eight years, had severe cough and at times great difficulty in swallowing, writes J. W. Houghton, Esq., of Highgate, Mass., Conn. "A doctor told me my appetite was poor and part of the time I was unable to do my work. I had been reading about Dr. Pierce's Golden Medical Discovery, and I continued taking it until I had taken several bottles. Now I feel like a new man, and I can do as hard a day's work as any man. I advise all my friends who are troubled with cough and Dr. Pierce's Golden Medical Discovery.

Free. The People's Common Sense Medical Adviser free. Send stamps to pay expense of mailing only. Send it in a few days after cutting has no chance to deteriorate, if given ordinary care. I have been familiar with cheese and dairymen for many years, and from firm conviction when I say that no healthier or more nutritious food exists than this when properly made and carefully stored—GEO. W. NEWELL, in AMERICAN AGRICULTURIST.

Spitted milk. When milk has been spilt, the first thing to do is to remove as much of the liquid as possible with a damp cloth. Then dip a clean rag into some skimmed milk and sponge the stain. The cloth and milk must be clean for each application. A little ammonia will remove any grease which the milk may make.

Madrid's slums. Madrid abounds in slums, which are even greater crosses than those of Whitechapel. There are labyrinthine of narrow old streets, bordered by the most unsavory habitation, and from these alleys these shoddy spring the components of the ferocious mobs which are the bane of the city.

The Chinese are very fond of foreign song birds. Forty years ago, when canaries were first introduced to that country, a pair cost \$12; now they have come to cost only \$1.50, and that a pair can be bought for 75 cents.

It is estimated that there are 240,000 women domestic servants in London, and that 10,000 of these are always out of situations or changing their places.

F. R. WILDER, 628 1/2 Fourth St., Louisville, Ky.

BASKETT COAL IS A JEWEL.

That is the verdict of all housekeepers who used BASKETT COAL as a fuel last winter.

Its Good Points Are Numerous. It's An Economical Coal. . . .

For the reason that it gives more heat for the money than any other coal on the market. It makes a steady, lasting fire. Fill your stove or grate with it at night, close your drafts and you've got a fire that lasts until morning. You do not have to use as much BASKETT COAL as other kinds, because it has more substance and weight to it than fast burning coal.

IT'S A CLEAN COAL.

THE BASKETT COAL is clean. All good bituminous coal produces clinkers, so does the Baskett, but it makes less clinkers and less ashes than most other varieties, and is therefore an ideal grate or stove coal.

BASKETT COAL is a superb fuel for use in flouring mills, tobacco factories, saw mills and manufacturing plants.

SPECIAL PRICES IN CAR LOAD LOTS.

ALL ORDERS WILL HAVE PROMPT ATTENTION.

H. BAKER BROS., HARDINSBURG, KY.

HARDINSBURG.

S. A. Witt has returned from a visit to Owensboro.
Frank Mercer came down from Louisville last Saturday.
The Eclipse Grocery will pay cash for a few sweet potatoes.
Rev. J. W. Bigham and family have located at Marion, Ky.
Will pay cash for a few barrels of good sorghum—V. G. Babage.
Head of your subscription. Don't get behind with your county paper.
Miss Nellie Miller, of Sample, was the guest of Miss Mary Smith last Sunday.
Before we get another issue, the Goshel business will have been settled.
Richard May is all sick, but his friends hope to see him out soon.
Miror Compton, who lives near Garfield, has twelve head of young cattle for sale.
Miss Mary Laster thinks she will leave for her home in Missouri next Friday.
Wm. Henley was in Louisville a few days last week inspecting the tobacco market.
Mrs. Minor Payne, of Bewleyville, was here last week visiting her daughter, Mrs. Sam Faye.
Rev. Mr. Petty and wife were present last Friday at the Woman's Missionary meeting.
The first quarterly meeting of the M. E. Church South will be held here the fourth Sabbath in this month.
Charles Radenheimer, of Clinton Mill, had a sale of his personal effects last Saturday. He is going to move to Ohio.
Miss Jennie Hardin and Mrs. Roberts, who have been visiting Mr. J. A. Witt, returned to their home at High last Saturday.
You ought not to neglect putting on heavy undergarments, especially when you can find it so cheap at the Eclipse, the up-town house.
None of the old inhabitants of Hardinsburg remember Col. James Farleigh quite well, and they were sorry to

learn of his death.

Although this campaign has been a hot one, the Hardinsburg politicians have taken the thing easy and abstained from any personal abuse.
The first snow of the season fell here last Friday. It caught a good many people out of coat. The coal men have not been able to supply the demand here this fall.
Rev. J. R. Moore, pastor of the Baptist church in this place, has announced a protracted meeting to begin next Monday. He will be assisted by the Rev. A. F. Gordon, of Louisville.
The Honor Roll for the pupils in Miss Irene Board's room at the public school will appear in this paper next week. Miss Board is taking a great interest in her school work.
It is reported here that some parties are talking of starting a saloon at Kirk. This is surely a mistake. No one could afford to open a saloon there. The local option folks would give him trouble, and besides it would be a great curse to the neighborhood.
There was a good attendance at the teachers' meeting at Harrods last Saturday. The meeting was held in the Baptist church and everybody was made comfortable. An organ had been secured and there was good singing by the local choir. The people had prepared dinner and spread it in the church for the visitors. Superintendent Driskill pronounced the meeting a success. Sam Faye, Dr. Walker, Misses Irene Board, Katie Ekridge and several others were present from this place.
Dr. Bull's Cough Syrup is the best remedy for all bronchial affections. It is a great mixture either a cough or cold in the chest. It may develop serious throat and lung trouble. Take Dr. Bull's Cough Syrup at once.
Home Again.
Mrs. Jesse R. Bates, of Buschels, Ky., is visiting her brother, Thomas Robertson, at Glendensie. This is her first visit home in six years.
Good Farmer.
J. H. Clarkson, one of Big Spring's best farmers, is heading 875 head of cattle and 125 head of hogs.

SAND CAVE FLAT

Success to the News.
Dick Hardin was the guest of Mr. and Mrs. B. Lay last Sunday.
Several from this community attended the speaking at Stephenson last Saturday.
Miss Nanette Lay visited her brother, Ben Lay, and sister, Mrs. Ellen Roberts, last week.
Mr. Ed Haynes has moved to this community to assist Mr. D. C. Carville in making slaves on Poplar Flat.
John Cashman, of Union Star, spent a few days last week with his son, Orlan, and attended the speaking at Stephenson last Saturday.
Mr. and Mrs. P. D. Hawkins, of Union Star, and Mrs. L. B. Helm and Mrs. E. H. Miller, of Stephenson, were the guests of Mr. and Mrs. Andrew Claycomb last Sunday.
President A. C. Burton, of the Brandenburg Normal school, delivered a lecture on "The Preparation of the World for the Coming of Christ," at the Franklin street Baptist church in Louisville last Friday night. The lecture was given under the auspices of the R. Y. P. U. The subject is one of great interest, and no doubt the lecture was a grand affair.
The Free Public school is an American institution of which we, as a people, are justly proud. We look upon it as the best system of education known to civilization, and the very palladium of civil and religious liberty. Free and popular education as organized in our public school system is one of the foundation stones of our great republic and as soon as practicable this system of education should be established in all of our new possessions.
The first time you feel—or see—any thing wrong with your eyes is the right time to use Sutherland's Eagle Eye Salve. It is a sure and safe cure for inflammation, granulated lids or sore eyes. Good druggists sell it.
At Jolly Station.
T. L. Wise, pastor of the Baptist church, at Jolly Station, is holding a protracted meeting, assisted by Rev. I. W. Wise, of Princeton, Ky.

UNDERTAKING AND BURIAL TRIMMINGS.

Our especial attention will be given to all orders of this character.

Jolly & McEltholman,
IRVINGTON, KY.

GARFIELD

Hurrah for the News.
To A. A. Richardson's for bargains Henry Black left for Texas the 2nd. Success to you, Henry.
Mrs. Melvina Gregory returned to her home last week after staying quite a while with her son, Tom Gregory and family.
Work has again opened in the asphalt mines. This time the order is forty car loads. This will furnish work for a number of hands and teams, and will be a great benefit to the community.
Bro. Felix Roberts, singing master, is trying to make up a singing school in the Lost Run neighborhood. We hope he will be successful, as there is not a better than good singing.
The Angel of death has again visited our community and taken from our midst one of the brightest jewels. Little flower and Gregory, the seventeen-month-old son of Tom and Melvina Gregory, after an illness of some duration, died October 17. Everybody that knew little Howard loved him and God loved him too and he was that he was so tender a little lad to be taken to and to be in this cold, unfriendly world and so he took him to himself.

We feel that any word of consolation we might offer to the bereaved ones would be a vain attempt to fill the aching void in their hearts. We don't know now or we will know after awhile why these things are. God parents, we know your hearts are torn and your home is lonely and sad, but God hath done this and we know he doeth all things well. Then weep no more but rather rejoice that you will again meet him on the other shore where parting is no more.
Yes, little Howard will know his loved ones. When they reach the other shore, Yes, he will know when you are coming. Yes, he will meet you at the door.
Benedict Mattingly.
Mr. Benedict Mattingly is seriously ill at the home of his son, Jack Mattingly. Mr. Mattingly is more than eighty years old and his friends fear that he will never recover his health.
Cloverport Boy Harried.
James Witt, son of Mr. William Witt, of this place, and Miss Ashcraft were married last week at the bride's home at Ashcraft, Ky.
Mr. and Mrs. Witt are now visiting Mr. Witt's parents at Ashcraft.

Best Values and the cheapest bargains.

We have the best values and the cheapest bargains in SHOES of any house in town. They are here for sale and must go. We only ask a small profit on shoes (say 10 per cent) to introduce our goods and show you what we can do. The old-time merchant who is still holding his goods for a profit of 25 and 30 per cent is a bank number, it doesn't matter how much capital he has, the consumer cannot afford to pay such prices. It is his business to hunt out the bargains. We have them. Give us a trial trip on Men's pants, and Boys' suits and see what we can do for you in that line also.

THE ECLIPSE,

The Up-Town House,
Hardinsburg, Ky.

Send \$2.50 to the BARKER-KRIDER NEWS and get a \$5.00 Bible and the News free of charge for one year.
